

To play one of Donnie's songs, **click** on one of the song titles within the colored area of the jukebox.

After the song title is clicked, a series of numbers will begin incrementing across the top of the box. **NOTE:** this flash jukebox plays streaming music, and will begin playing almost immediately and will continue to play while the rest of the song is downloaded to your computer.

To play another song, click on one of the other selections. The one playing will stop and the current one will load and play.

CONTROLS

PLAY – used to begin playing after the pause button, or stop button is depressed. Will resume playing the current selection when clicked.

PAUSE – will pause the current selection. Clicking the play button will resume playing.

STOP – will stop the current selection and rewind to the beginning of the song. Clicking the play button will play the song from the beginning.

PREVIOUS SELECTION – will select the next song and begin playing from the beginning.

NEXT SELECTION – will select the previous song and begin playing from the beginning.

VOLUME - sliding this bar to the right will increase volume, and sliding it to the left will decrease the volume.
